

TECH NOTES

Life Sciences

As one of the leading analytical laboratories in the southeast, McCoy & McCoy Laboratories, Inc. (MMLI) utilizes the latest advancements in automated and rapid analytical technology. Our laboratory provides our clients with exceptional turnaround times and accurate results, all while offering individual attention throughout the testing and reporting process. Our highly-skilled team of analysts are certified under our ISO 17025:2005 and NELAC certifications, and are trained to focus on attention to detail from sample receipt to the time your results are reported. MMLI also participates and maintains good standing with numerous accredited proficiency programs. Listed below are some of MMLI's most popular services. If you don't see the one you need, let us know and we can develop it!

MICROBIOLOGY

- Pathogen Detection:**
 E. coli (including O157:H7)
 Salmonella
 Staphylococcus aureus
 Pseudomonas aeruginosa
 Legionella
 Listeria
 Listeria monocytogenes
 Coliforms
- Enumeration:**
 Aerobic Plate Count
 Yeast and Mold
 Gram Negative Count
 Bacillus cereus
 Enterobacteriaceae
 Clostridium perfringens

PRODUCT CHEMISTRY

- Ash
- Carbohydrates
- Crude Fats
- Crude Fibers
- Free Fatty Acids
- Metals
- Minerals
- Moisture
- Nitrogen
- Peroxide Value
- Total Fats
- Total Fibers
- Water Activity

POTABLE WATER

- Total Coliform
- E. coli
- Nitrate/Nitrite
- Inorganics
- Secondary Group
- Volatile Organic Compounds
- Synthetic Organic Compounds
- HAA & THM
- Total Organic Carbon
- Lead & Copper
- Chlorite
- Sodium
- Heterotrophic Plate Count

ISO/IEC
 17025:2005
